

Certificate

Issued by **Nouveau Health Ltd**, company number 08981880 registered in the UK

This certificate confirms that:

Svetlana Kapelas

Successfully participated in and finished the course:

Collection of Diagnostic Capillary Blood Specimens

for physicians, pharmacists and other health professionals.

Contents of the course were based on and according to:

CLSI Standard GP42-A6 (6th Ed. / 09-08)

WHO Guidelines on Drawing Blood (2010)

Best practice training for safe and patient-friendly finger-prick blood sampling
included use of safety lancets and blood collectors.

Successful participation was confirmed by a practical exam.

The participant demonstrated his/her ability to conduct safe capillary blood collection
for diagnostic purposes according to the guidelines, by accurately performing
the VHC Vitamin-D test, a quantitative point of care vitamin D test, requiring
10-microlitre capillary blood samples.
